## Grow Light

—Light that We Nurture—

### Growth and Maturity of Osaka, Illuminated by Lights

The highly anticipated Expo 2025 Osaka Kansai is about to begin! Various light displays spanning approximately 4km along Midosuji Ave. will enhance the festivity and excitement.

### Three Concepts of Midosuji Illumination

#### Enjoy the Lights

Trees are illuminated across seven zones, each reflecting Osaka's history and the unique characteristics of each area.

Tree illuminations  
Illuminations around the area

#### Play with Lights

A workshop will be held to allow you to participate and experience the gentle light effects created by your hands.

Projection Mapping  
Light Workshop

#### Connected by Light

The entire area will be decorated with gorgeous lights, and a lighting program will be held to enjoy and explore Midosuji Ave.

Collaboration with the city  
AR Production

#### Aqua Metropolis Blue

Hanshin-mae to Umeda Shinmichi

A vivid blue inspired by the water of the Dojima River which used to be connected to Umeda

#### Purple

Umeda Shinmichi to Oebashi-kitazume

An image of a vibrant town that flourished as an entertainment district, bustling with government officials and merchants

#### Champagne Gold

Fushimimachi-3 to Senbachuo-3

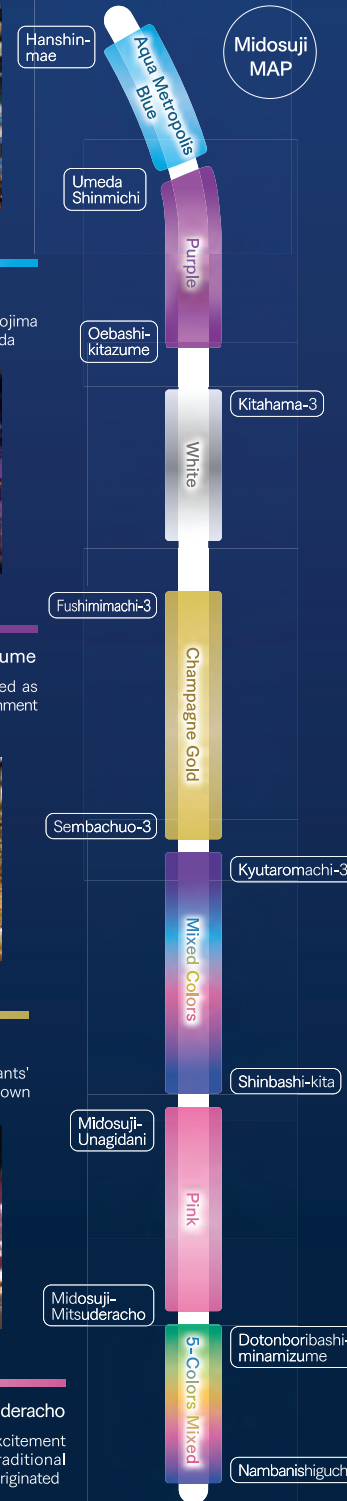

The gorgeous light represents the merchants' district that thrived as the Osaka Castle town

#### Pink

Midosuji-Unagidani to Midosuji-Mitsuderacho

Vibrant and lively colors that reflect the excitement of Nanchi Gokagai district (known for traditional theaters), from which the name "Minami" originated

### Reflecting on the Development and History of the City

Midosuji Ave., with its long history dating back to its opening in 1937, has witnessed the growth of Osaka.

Midosuji Illumination 2024 unfolds the history that formed the base and the growth of each area of the city to what it is today, and expresses it through lightings.

#### White

Kitahama-3 to Fushimimachi-3

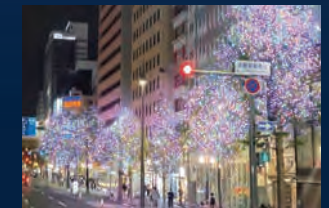

Image of the bustling Dojima Rice Market nearly 200 years ago, which led to the city becoming a financial center

#### Mixed Colors

Kyutaromachi-3 to Shinbashi-kita

Expressing a town that developed centering on the textile industry with various colors of light layered together

#### 5-Colors Mixed

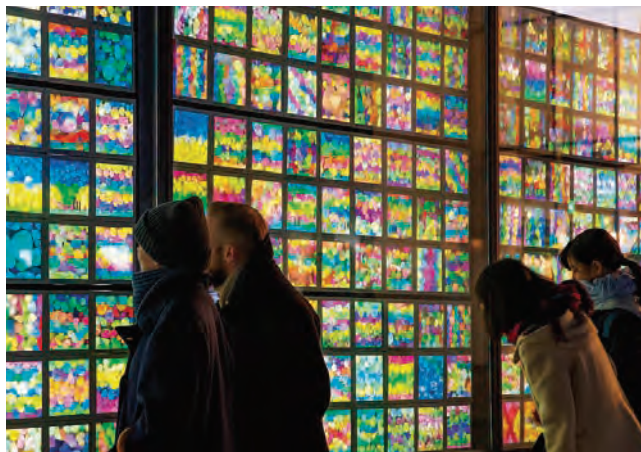

Dotonboribashi-minamizume to Nambanishiguchi

Representation of a town that developed as a center of diverse culture with small playhouses lining on the street

## "See, Experience, Participate" – Three Spots to Enjoy the Lights

### A Space Enveloped in Light, Images and Sound

"Box of Light" created by Taizo Matsumura

"Box of Light," created by public participants at a pre-event workshop will be exhibited as a unique art piece in the ground of Kitamido. Approximately 400 boxes of lights will welcome visitors! Accompanied by music, the shimmering lights at your feet will ripple out like waves, creating a luxurious space that intertwines with the projection mapping and light performances held every 15 minutes. Please come to enjoy this splendid atmosphere.

※Note the content of the performance may change when there are other events taking place at the ground of the temple.

**Place** Kitamido  
(Honganji Tsumura Betsuin Temple)

Sign up for the workshop from here

※Note that registration will close once it reaches full capacity

### Ever-Changing Light

The lights, continuously changing with a gradient of colors, express Osaka's dignified growth toward the Expo and beyond, illuminating the night cityscape.

**Place** Umeda Intake Tower

### Play with Color Shadows

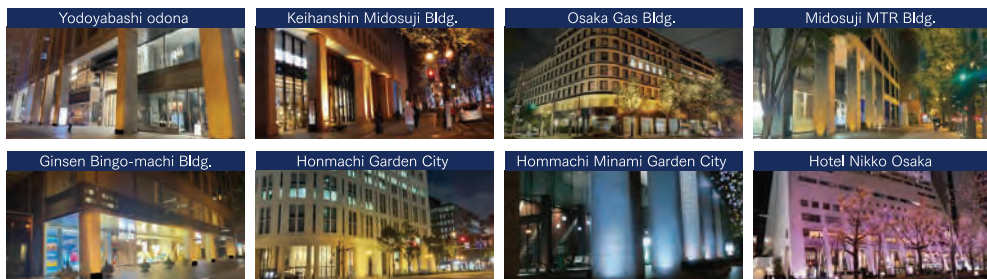

The light performance adds colorful hues to the shadows of people moving through the space. Just by being there, you become a part of the art. Additionally, by scanning a 2D code for AR, you can take special photos with a limited-time photo frame.

**Place** Namba Square

### Building facade lighting

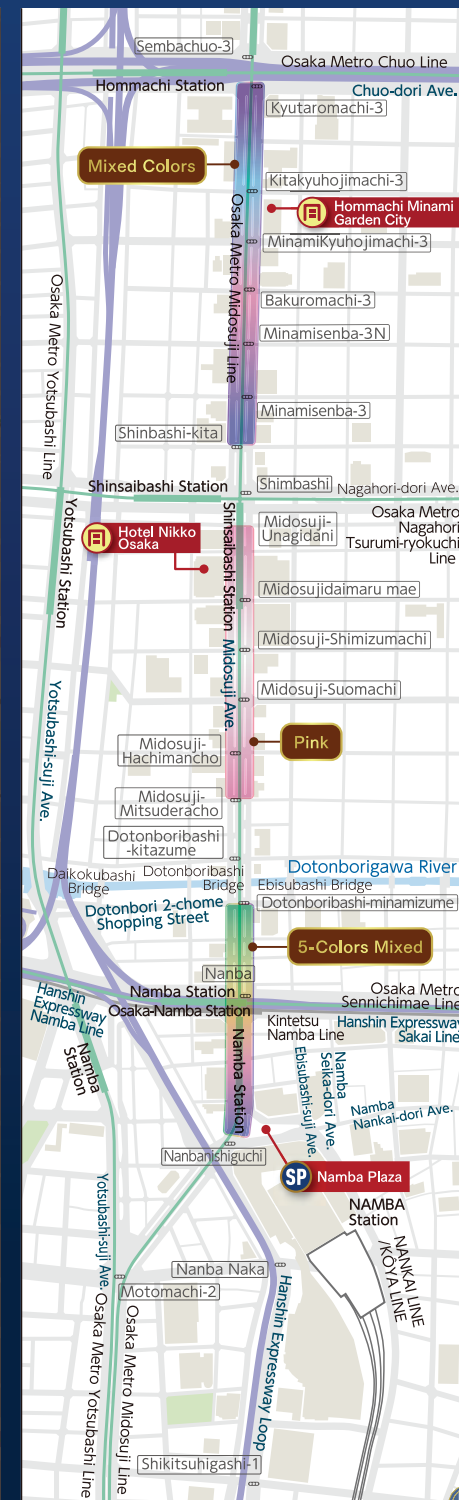

The facades of buildings along Midosuji Ave. will also be illuminated to brighten the area.

### Embracing Nature, Living with Nature. Interactive Art that Creates the Future

Spanning a vast 240,000 m<sup>2</sup>, "teamLab Botanical Garden Osaka" beautifully illuminates the expansive botanical garden with stunning light displays. This nighttime permanent exhibition began in 2022, using the urban oasis of Nagai Botanical Garden, home to over 1,200 plant species. The program showcases a collection of works where nature and art coexist, creating an experience unique to a botanical garden setting.

What surprised us when we interviewed them was their consideration for the environment where the plants grow. For example, in the camellia garden, they started by replacing the soil first as the original clayey soil made it difficult for plants to thrive. In another area where crape myrtle trees were planted too closely together, teamLab members replanted them with wider spacing. The dedication towards the plants is reflected

in the concept of teamLab's each artwork, highlighting their deep respect for nature. The signature piece of this exhibition, 《Sculptures of Dissipative Birds in the Wind,》 is an artwork using digital technology that casts enchanting swirling lights onto massive sculptures. These swirling patterns are created by tracing the flight paths of many wild birds above the stones through sensors. In creating this piece, teamLab planted flowers and grasses around the area. As the vegetation flourishes, insects begin to inhabit the space, attracting birds in search of food. This symbiosis between the art installation and the natural environment's growth is a hallmark of teamLab Botanical Garden Osaka, where the exhibition itself contributes to the maturation of the ecosystem.

#### Walk, Walk, Walk – Secondary Forest

An anonymous and diverse group of figures suddenly appear in the dense undergrowth of the secondary forest. These real-time, computerprogrammed visuals are never repeated, offering a unique experience each time. As you watch the animals move through the deep, layered space of the forest, you may feel as though real creatures are walking right before your eyes. Encounter the endlessly marching characters of the artwork, and immerse yourself in the sense of the eternal passage of time within the forest.
